Drinking water system at Bandhaguda. Life Saver Dissection.

Bandhaguda Village situated in interior part of Mundiguda panchayat comes under Khairput Block of Malkangiri District. Total 95 HH of PVTG community is residing with poor social economic background.

Community of Bandhaguda depends on solar water point 15 No HH benefited from BAL point. Other people are depending on stream and open chuan water for drinking purpose.

After launching of OPELIP project villagers requested FNGO team regarding Drinking water solution Mangala Badanayak village Leaders.

One of the village of Bandhaguda told to team to set up a water out post point and save 90HH life at survey time we requested so many person but nobody hearing our cry Regularly quailing took place among the people regarding water, there is no solution in our mind we hope OPELIP can solve our problem.

To fulfill people demand FNGO Vikash discussed with B.DA staff, programme manager project header. All introspect and 250mtr pipe will essential for construct Uno water post committee approved to purchase 250 metro PVC pipe and other essential equipment. With 151 mark and put in entry point activity work. Villagers of Bandhaguda gave hand hold support to FNGO to do this work.

Now water flow in heavy and people of Bandhaguda getting sufficient water for drinking purpose. Villagers are talking among each other OPELIP and BDA save our live by supplying drinking water. We are so grateful to OPELIP and BDA and Thanks to FNGO Vikash.
